NORTH STAR

Editor - Shirley Meyers

Advisor - Elaine Chrisman

We would like to say----

'Twas the day before deadline, and all through the school
The whole staff was dashing, and running like fools;
We all have been working from the first of the year,
And now here at last that day was so near.
The captions were written and typed with much care,
In hopes that no errors would be found there;
The pictures were cropped and pasted in place
As we desperately tried to fill up each space.
We've tried to cover each activity and class
In hopes to preserve good times of the past.
We've had moments of joy and days of grief
But now that we're through, whew--what a relief!
Away to the printers it flew like a flash
In hopes that our yearbook would be a big smash.

The Staff

Our Board of Education, which is directly responsible for the schools in our county, are as follows: Left to Right: Mr. George Edwards, Associate Member; Mr. Maurice Brookhart, Vice-President; Dr. Ralph Calandrella, President; and Mr. Willard W. Hawkins, Superintendent of Schools.

Mr. Foster D. Bittle is the Supervisor of Junior-Senior High Schools. You can see Mr. Bittle periodically around our school area.

Dear Students:

Your lives, from birth to death, is like a book, it tells a story. Each year can be likened to a chapter in a book. June 13, 1959, marks the end of another chapter in your books.

In order to help you preserve the memories of this chapter entitled, School Year 1958-1959, your Yearbook staff has assembled many pictures, names and popular sayings into the NORTH STAR, your official school yearbook. Much time, effort, and money has gone into the preparation of this book of memories for you.

May I take this opportunity to CONGRATULATE Shirley Meyers, Editor in Chief; all members of the NORTH STAR Staff: Miss Chrisman, Advisor; and Mr. Englar, Photographer, for the excellent job in compiling these memories into such a splendid yearbook.

In closing I would like to extend, to all of you on behalf of your Faculty and the other adults, our BEST WISHES for continued success and happiness as you write your books.

May God bless you.

Sincerely,
PJMuha

Each day as you walk into the office, you hear the busy sound of the typewriter, and see someone busily writing passes. The Public Address System in our school is a new addition and comes in very handy when making announcements. Mr. Malone is kept busy giving tests and helping students with their problems. The library is full of a rich supply of information for everyone. As the yearbook went to press, we learned that Miss Dauphin was leaving for greener pastures and Mrs. Frazee is filling her position.

Agriculture

TODAY, TOMORROW AND ALWAYS ... Agriculture is big.

Agriculture is a science, a business, a profession, an industry!

Agriculture provides more jobs and careers in the city than on the farm.

Agriculture is comprehensive, broad and vital! It's the basic industry - the BIG JOB!

About 40 percent of all jobs are somewhere in agriculture - jobs important to everyone, jobs with futures, jobs with financial and personal rewards!

Conservation is only a small part of the Agricultural training.

Social Studies

Is knowledge of the past important in understanding the Present? Is an understanding of the present an essential element of good citizenship in a democracy? The Social Studies Department of Northern High School agrees with the Maryland Department of Education in answering both of these questions with a firm "yes." Consequently, the job of this department is to help students to a greater knowledge and understanding of the past and of the present, in order that they may in turn do the best possible job as citizens in a complicated world.

Music is at once the most personal and the most social of the fine arts; it searches down the heart of the individual being and calls out emotions far too deep for words to embody.

DEDICATION SONG

By Jean Fike

Tune to (IT'S ALMOST TOMORROW)

We're going to leave you,
But this we must say--
We hope you will miss us,
Cause we just can't stay.
But this we are saying,
Our hearts will but shine;
For we know that true success
We all shall find.

Our friends will be greater,
For this we can say.
Our thoughts of our yester years,
We'll treasure al-ways.
But as we are striving
To make for the best,
We think that our future
Will be the great test.

CLASS SONG

By Wilma Hanlin

Tune to (MY HAPPINESS)

Now the time to say good-bye
For we must part, dear Northern High;
But our mem'ries will not die
Dear Northern High.

In our hearts our love remains;
Through the halls our echo reigns;
Fun and laughter it all brings,
Dear Northern High.

Chorus:
Our classmates and our friends--
We must say farewell to them.
The hours that we've spent here
We will treasure all through the years.

Now the future we shall face;
In your hands our trust we'll place
Loyal ties will not erase,
Dear Northern High.

LEFT TO RIGHT: Mr. Keplinger, Mrs. Matthews, Mr. Johnson, Advisors; Loretta Edgar, Historian; Roy Schlossnagle, Vice-President; Ethel Seibert, President; Sue Hershberger, Secretary; Martin Conn, Treasurer.

Class Prayer

By Ronald Beiler

Almighty God,

As we come to the close of our years at Northern High School, we would come before thee to thank thee for the blessings of the past years. For the opportunities which we have had we are truly grateful; for the mistakes we have made we would humbly implore thy forgiveness.

We thank thee for the teachers whom we have learned to appreciate, for our parents who have done so much for us, and for our friends whom we have come to love.

We would humbly thank thee for thy guidance in the past. Whatever the future may hold for us, may we always depend on thee for our strength and guidance. In our Savior's name we pray.

Amen

Many important decisions are made by the Senior Class---announcements, speakers for graduation, wills, prayer, songs, caps and gowns.

The Class Prophecy

Listen, my children and you shall hear
About the graduates of that school year.
It was the second of June in '59
When we were together for the very last time.
Our future then was not very clear.

It's a beautiful spring day on Mars in 1975. Alice was sketching an outline of "Martian Sun Rise." I was trying my hardest to set her hair but she wouldn't sit still. We started talking about the graduating class of '59, and were wondering just what each and every member of our class was doing.....WHEN.....up stepped "a little blue man" and just about scared us out of our wits. But because we didn't run away, he told us that together he would grant us one wish. Any wish at all. So we wished we might go around the world and see for ourselves what our classmates are all doing. We first sprinkled some of the "little blue man's" magic sand over our shoulders and became the same size as he. Next, we jumped on his invisible flying saucer, and AWAY WE WENT........

We had only been in the air a few minutes when we discovered we needed fuel, so we stopped at the first Satellite Fueling Station where "Bobbie" Frazee was running a very prosperous business. Lynn Durst and his three Airline Hostesses, Nancy Doerr, Nancy Turney and Juanita Brant had stopped to refuel on their way to the moon. We left unnoticed to continue our journey to the earth.

Our first stop was at Alaska. We landed in Donald Bartholomew's Used Rocket Ship Lot. We saw David Faidley, "Bob" Knox, Harold Schmidt, and Francis McCrobie trading in their various makes of trucks for gold and blue rockets.

On our way to the Northern Prefab Rocket Ship Corporation owned by Martin Conn, Marvin Beachy, Gary Hetrick, John Miller, "Buddy" Savage, and Dale Schroyer, we saw a sputnik pass over with a sign reading "Don't miss "Butch" Strauss and his chorus line consisting of Susan Bowman, Helen Spiker, Jean Fike, Joyce Glotfelty, Mary Ann Alexander, Sue Hershberger, Janice Resh, and Peggy Wilburn at "Dick" Spear's Starlight Ballroom."

As we entered the building we saw Frances Humberson conducting a group of sailors on a guided tour. In the group were James Friend and Dale Hetrick. We also saw "Ruthie" with her ten little Westerfields and her sailor husband.

Making our way through the huge building we found "Patty" Bittner, Reta and Reda Rush, and Gay Umbel working as secretaries in the different departments. What really took our eye was the Emergency Medical Center at the end of the hall, run by Ethel Seibert, Karol Riley, and "Patty" I. McKenzie, along with their Secretaries, Mary Alice Durst, "Dot" Savage and "Cathy" Sebold.

About two blocks away from the building we saw Darrel Beitzel, John McKenzie, Elaine Thomas, and Bradley Yoder selling "Do It Yourself Kits," for making real stars.

We couldn't leave earth without visiting our old school. We jumped into our invisible saucer and with our "little blue man" we flew right to Northern. The joint was really jumping!

Shirley Lowermilk and her assistant Naomi Kolbfleisch were very busy in the office counting the school's millions. The whole place seemed haunted.....and no wonder.

Glenn Frazee, Howard Green, "Ronnie" Unbel, Martha Maust, "Patty" A. McKenzie, Lawrence Georg, and Donald Friend were teaching classes throughout the building. Head of the cafeteria were Thelma Guthrie and Bonnie Spiker. The janitors were Dale Frazee and "Jimmy" Kisner. And what really swept us off our feet was when we found out the principal was Adam Hare. After this shock, we took off and headed for the moon.

On our way we passed "Cloud Seven," where we saw "Ron" Baker and Karen (Kinsinger) Baker, Teresa (Layman) Winner, Loretta (Edgar) Mosser, Joan (Savage) Dixon, Sheila (Warnick) Keefer, Nancy (Friend) Gribble, Helen (Wakefield) Benson, Margaret (Hinebaugh) Frost, "Patty (Friend) Fratz, Janet (VanSickle) Fike, Shirley (Schlossnagle) Metheny, "Patty" (Hinebaugh) Friend, and Shirley (Meyers) Friend, also Loretta (Kisner) DeWitt with their HUSBANDS.

As soon as we landed on the moon we were surprised to find "Patty" Cuppett, "Patsy" DeWitt, Wilma Hanlin, Elaine Siber, and Carolyn Winebrenner, who wanted so badly to be secretaries, vigorously mixing GREEN CHEESE for Adrian Spiker's, Marvin Sisler's and Fenton Lowery's Super Market. Working in their market as sales girls were Ethel Snyder, Nancy Durst, and Ella Mae Thompson. Located not far from the Super Market was the Earth Glow Motel owned by "Dick" Stanton, Roy Schlossnagle, and Melvin Savage. Swimming in the Crator Pool in the back yard were: Sam Friend, "Bob" Sanders, Peggy Platter, Rodney Meyers, Gary Friend, Rosetta Keplinger, Edith Murdock, and Peggy Sisler.

We didn't have time to stop at Glen Durst's, Grady Gilpin's, "Billy" Nedrow's, Edgar McKenzie's, and Robert Hoye's theater, where "Ron" Beiler was the main attraction.

Short of time and being tired we flew to Mars. Here, quite unexpectedly we saw a huge "Sputacular" Fair. Karen Durst was playing the piano for Richard Miller and Iva Mae Collier who were "EARTH BOPPING." On the flying trapeze were "Bobby" Bittinger and Beverlee Buckel. Equestrian Acts were Margaret Edgar, Donald Caruthers, and Nancy Swauger. "Pat" Merrill, Juanita Kale, and "Don" Jenkins were lion trainers.

Thinking we had seen all our friends, we decided to become better acquainted with the "little blue man." Since he couldn't understand much of our language we just said "TAKE ME TO YOUR LEADER." We almost fell off our saucer when we saw who the leaders were.... "Guy" Resh and "Tommy" Kirby. Because we went to school with these boys we thought we knew them well enough.

Relieved to see all our classmates healthy and happy, we went back to our own jobs, making wigs and illustrating space era fairy tale books.

President Hardesty Talks To Students

Mr. R. Bowen Hardesty, president of the Frostburg State Teachers College, spoke to the juniors and seniors in the gymnasium on January 22 He encouraged students to enter college. For the sake of those who had not already chosen a vocation, he mentioned the opportunties in the teaching field. He also pointed out the possibility of attending junior college at the state teachers college, and then transferring to a university.

An opportunity will be given students and parents to visit the college at Frostburg some Sunday in February. Interested students gave their addresses to Mr. Hardesty who will later notify them when to come.

The meeting was in charge of Mr. Malone.

In Industrial Arts

One of the most desired subjects of boys at Northern is probably Industrial Arts. At Northern, like most other high schools, Industrial Arts is a required course for all eighth and ninth grade boys and an elective of all boys in grades 10-12.

The course is planned with many objectives, mainly, to teach skills in the use of hand and power tools while forming wood and metal. It is also planned to teach attitudes and habits of doing work neatly and accurately, also to develop the fundamentals of safe work habits and a feeling of self-confidence in the student's ability to make a worthwhile and serviceable project.

There are two shops in the Industrial Arts Department, the wood shop and metal shop

The metal shop has the facilities to instruct boys in general metal work. Mr. Chauncey Friend is the metal shop instructor. His program of [illegible] metal instruction includes instruction in layout work drilling, file work, [illegible]

These three sheep pictured with their owner, Dale Kelso, will serve as the basis of what Dale hopes will someday be a fine herd of sheep. Dale also has hives of bees as a part of his Vocational Agriculture Project Program.

Both the pony in the picture above and the Hereford Steer below are shown with their owner, John Savage. The pony has been a part of John's project program for sometime but he, like several other boys in the F. F. A., decided he would like to produce a Baby Beef. The project program of several F. F. A. boys has increased in size for the same reason.

Allan Rush, owner of a dairy cow for sometime, is shown here with his Angus and Hereford Steers. Allan plans to show one in each of their respective classes at the county fair this summer. This activity continues in addition to his normal dairy project operation.
